## Definitions

**Allowable charge:**\* The negotiated amount for which an in-network provider agrees to provide services or supplies.

**Coinsurance:** Your share of the fee for a service. If your plan's coinsurance share is 20%, you pay 20% of the allowable charge and your plan benefit pays the other 80% of the allowable charge.

**Network:** A group of doctors, dentists, hospitals, and other healthcare providers that contract with LifeWise to provide services and supplies at negotiated amounts called allowable charges.

**Copay:** A flat fee you pay for a specific service, such as an office visit, at the time a service is rendered.

**Covered in full:** Services your plan pays for in full. Benefits provided at 100% of the allowable charges; not subject to deductible or coinsurance.

**Deductible:** The amount of money you pay every year before the plan pays for certain services.

**Formulary:** A list of drugs the plan covers for specific uses. To find the formulary for your plan, go to [lifewisewa.com](http://lifewisewa.com) and click the Pharmacy tab.

**Out-of-pocket maximum:** A preset limit after which your plan pays 100% of the allowable charge for services received in-network. All in-network essential benefits apply to the out-of-pocket maximum.

**Producer:** Previously referred to as a broker or agent.

**Primary care provider (PCP):** The provider who helps coordinate your care. You can choose a different primary care provider for each family member from: physicians and internists, physician assistants, and nurse practitioners; ob/gyns and women's health specialists, pediatricians, and geriatric specialists; or naturopaths. To get reduced office visit copay with the PCP plans, you must choose a provider contracted as part of the LifeWise network and inform us this is your designated PCP.
